SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

Product form : Mixture
Product name : BMC & SMC Polyester / Vinyl Ester Thermoset Molding Compounds
Other means of identification : DIELECTRITE / INSULTRUC / ROSITE

1.2. Relevant identified uses of the substance or mixture and uses advised against

Use of the substance/mixture : Multiple Industrial Uses

1.3. Details of the supplier of the safety data sheet

IDI Composites International
407 South 7th Street
Noblesville, IN USA 46060
(317) 773-1766

1.4. Emergency telephone number

Emergency number : 24-Hour Contact CHEMTREC 1-800-424-9300

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

Classification (GHS-US)
Skin Irrit. 2       H315
Eye Irrit. 2A      H319
Carc. 1B          H350

2.2. Label elements

GHS-US labeling
Hazard pictograms (GHS-US) :

Signal word (GHS-US) : Danger
Hazard statements (GHS-US) : H315 - Causes skin irritation
                               H319 - Causes serious eye irritation
                               H350 - May cause cancer
Precautionary statements (GHS-US) : P201 - Obtain special instructions before use
                                      P202 - Do not handle until all safety precautions have been read and understood
                                      P264 - Wash hands and other exposed areas thoroughly after handling
                                      P280 - Wear protective gloves/protective clothing/eye protection
                                      P302 + P352 - If on skin: Wash with plenty of water
                                      P305+P351+P338 - If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
                                      P308 + P313 - If exposed or concerned: Get medical advice/attention
                                      P332+P313 - If skin irritation occurs: Get medical advice/attention
                                      P337+P313 - If eye irritation persists: Get medical advice/attention
                                      P362 - Take off contaminated clothing and wash before reuse
                                      P403+P235 - Store in a well-ventilated place. Keep cool.
                                      P501 - Dispose of contents/containers in accordance with local, state and federal regulations

2.3. Other hazards

Sanding, grinding, or other machining of molded parts made from BMC and SMC may create the potential for combustible dust-air mixtures. Follow safe work practices and prevent dust accumulations to minimize explosion hazards.

Carbon black (CAS 1333-86-4)
Carbon black, as a colorant, is a minor component of some BMC and SMC products. It is in a paste form, and therefore does not pose a risk from inhalation.
Styrene (CAS 100-42-5)
A recently published update to an extensive, 55,000- composite worker study concluded there is no evidence that styrene exposure increased their risk of cancer.
In addition, a published study determined that the mechanism for causing cancer in styrene exposed mice is not relevant to humans.

2.4. Unknown acute toxicity (GHS-US)
None of the ingredients are of unknown toxicity

SECTION 3: Composition/information on ingredients

3.1. Substance
Not applicable – the product is a mixture

3.2. Mixture

SECTION 4: First aid measures

4.1. Description of first aid measures

First-aid measures general: Never give anything by mouth to an unconscious person. If you feel unwell, seek medical advice (show the label where possible).

First-aid measures after inhalation: Allow victim to breathe fresh air. Allow the victim to rest.

First-aid measures after skin contact: Wash with plenty of soap and water. Wash contaminated clothing before reuse. If skin irritation occurs: Get medical advice/attention.

First-aid measures after eye contact: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.

First-aid measures after ingestion: Rinse mouth. Do NOT induce vomiting. Obtain emergency medical attention.

4.2. Most important symptoms and effects, both acute and delayed

Symptoms/injuries after inhalation: Inhalation of vapors may cause CNS depression, respiratry tract irritation and coughing.

Symptoms/injuries after skin contact: Causes skin irritation.

Symptoms/injuries after eye contact: Causes serious eye irritation.

4.3. Indication of any immediate medical attention and special treatment needed

No additional information available

SECTION 5: Firefighting measures

5.1. Extinguishing media

Suitable extinguishing media: Dry powder. Carbon dioxide. Water spray. Product is not flammable; use extinguishing agent appropriate for surrounding fire.

Unsuitable extinguishing media: None.

5.2. Special hazards arising from the substance or mixture

Fire hazard: Processing and handling of the product may form combustible dust concentrations in air.

Explosion hazard: Potential dust explosion hazard. When dust becomes airborne and is exposed to an ignition source, sufficient combustible dust may exist to burn in open areas or explode in confined spaces.

5.3. Advice for firefighters

Firefighting instructions: Use water spray or fog for cooling exposed containers. Exercise caution when fighting any chemical fire. Prevent fire-fighting water from entering environment.

Protection during firefighting: Do not enter fire area without proper protective equipment, including respiratory protection.
SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

6.1.1. For non-emergency personnel
Emergency procedures : Evacuate unnecessary personnel.

6.1.2. For emergency responders
Protective equipment : Equip cleanup crew with proper protection.
Emergency procedures : Ventilate area.

6.2. Environmental precautions
Prevent entry to sewers and public waters. Notify authorities if material enters sewers or public waters.

6.3. Methods and material for containment and cleaning up
Methods for cleaning up : On land, sweep or shovel into suitable containers. Store away from initiators and peroxides.

6.4. Reference to other sections
See Heading 8. Exposure controls and personal protection.

SECTION 7: Handling and storage

7.1. Precautions for safe handling
Precautions for safe handling : Wash hands and other exposed areas with mild soap and water before eating, drinking or smoking and when leaving work. Provide good ventilation in process area to prevent formation of vapor. Obtain special instructions before use. Do not handle until all safety precautions have been read and understood.

Hygiene measures : Wash hands and other exposed areas thoroughly after handling.

7.2. Conditions for safe storage, including any incompatibilities
Storage conditions : Keep only in the original container in a cool, well ventilated place. Keep container closed when not in use.
Incompatible products : Strong bases. Strong acids.
Incompatible materials : Sources of ignition. Direct sunlight.

7.3. Specific end use(s)
No additional information available

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

8.2. Exposure controls

Appropriate engineering controls : Ensure that proper ventilation is provided to maintain exposures below regulated limits.

Personal protective equipment : Avoid all unnecessary exposure.
Hand protection : Protective gloves, such as latex, are recommended.
Eye protection : Safety glasses recommended.
Skin and body protection : Not typically required.
Respiratory protection : Not typically required. If airborne exposures exceed recommended limits wear a NIOSH-approved respirator.

Other information : Do not eat, drink or smoke during use.

#### 9.2 Other information

No additional information available

### SECTION 10: Stability and reactivity

#### 10.1 Reactivity

This product is not reactive under normal handling and storage conditions.

#### 10.2 Chemical stability

This product is stable under normal handling and storage conditions.

#### 10.3 Possibility of hazardous reactions

Not anticipated under normal handling and storage conditions.

#### 10.4 Conditions to avoid

Direct sunlight. Extremely high or low temperatures. High temperatures will induce non-violent polymerization.

#### 10.5 Incompatible materials

Peroxides and polymerization initiators.

#### 10.6 Hazardous decomposition products

Toxic fumes. Carbon monoxide. Carbon dioxide.

### SECTION 11: Toxicological information

#### 11.1 Information on toxicological effects

Acute toxicity: Not classified

EN (English US)
12.4. Mobility in soil
No additional information available

12.5. Other adverse effects
Other information: Avoid release to the environment.

SECTION 13: Disposal considerations

13.1. Waste treatment methods
Waste disposal recommendations: Dispose in a safe manner in accordance with local, state and federal regulations.
Ecology - waste materials: Avoid release to the environment.

SECTION 14: Transport information

Department of Transportation (DOT)
In accordance with DOT
Not regulated for transport

Additional information

ADR
No additional information available

Transport by sea
Marine Pollutant: No

Air transport
No additional information available

SECTION 15: Regulatory information

15.1. US Federal regulations

BMC & SMC Polyester / Vinyl Ester Thermoset Molding Compounds
All constituents are in compliance with the United States TSCA (Toxic Substances Control Act) inventory

BMC & SMC Polyester / Vinyl Ester Thermoset Molding Compounds
SARA Section 311/312 Hazard Classes
Immediate (acute) health hazard
Delayed (chronic) health hazard

Carbon black (1333-86-4)
Listed on the United States TSCA (Toxic Substances Control Act) inventory

Styrene (100-42-5)
Listed on the United States TSCA (Toxic Substances Control Act) inventory
Listed on United States SARA Section 313
SARA Section 313 - Emission Reporting
0.1 % deminimis

15.2. International regulations

CANADA

Carbon black (1333-86-4)
Listed on the Canadian DSL (Domestic Substances List)

Styrene (100-42-5)
Listed on the Canadian DSL (Domestic Substances List)

EU-Regulations
Carbon black (1333-86-4)
Listed on the EEC inventory EINECS (European Inventory of Existing Commercial Chemical Substances)
Listed on ELINCS (European List of Notified Chemical Substances)

Styrene (100-42-5)
Listed on the EEC inventory EINECS (European Inventory of Existing Commercial Chemical Substances)

Classification according to Regulation (EC) No. 1272/2008 [CLP]
No additional information available

Classification according to Directive 67/548/EEC [DSD] or 1999/45/EC [DPD]
No additional information available
